

Conclusion and Future Scope

Conclusion

We have used very successful procedure with the help of Elasticsearch so can conclude that user will feel free to get cleaned data. We can be very helpful to provide exact data in banking sector, financial institution, and information bureau such as in PAN Card Centre, Voter ID Card Organization, Card Organization such as Master Card, Visa Card and in many more.

Generally, when a user request our service then we use these five process:

1. Data Loading
2. Inquiry
3. Enrichment
4. Bureau Run
5. Bureau and ES Enrichment

All these above five process are done through Elasticsearch.

If any user request our service then they will be able to take benefit for:

- Better Performance
- Enhanced Search Result
- Reduced Server Load

Future Scope

These are the future works:

- Standardize the retrieved data
- Optimization of informational data
- Fetching Data into indexes
